Graduate Advisors and Postdoctoral Sponsors :
Graduate Master advisor: Jean Louis Allard, CESI, France

Thesis Advisor and Postgraduate-Scholar Sponsor :
Professional Certification : Magali Cartron, CESI, Responsable Formation et Développement des Compétences

SYNERGISTIC ACTIVITIES

1. First of all, I worked for 6 years for an IT company as a technical manager.

2. I joined CESI in 2004. At this time, CESI decided to create a new school in computer science, with a problem-based learning approach. I was hired to develop and to teach in this school (exia.CESI). At the beginning, I taught network-science and IT and I was responsible for the student's supervision in the third and the fourth year of exia.CESI, on Rouen campus.

3. In 2011, I became the "Dean of Study" for all the campuses in France and for the whole exia.CESI program: undergraduate, master and executive postmaster programs.

4. Nowadays, exia.CESI is composed of 15 centers in France and 1 in Algiers. Nearly 1500 students are enrolled in the five -year course.
